Dear Valued Customer:

Advanced Digital Cable, Inc., (ADC) has reviewed the materials used in our products, and received statements from our current compound suppliers, concerning Perfluoroalkyl and Polyfluoroalkyl Substances (PFAS) subject to reporting per the Toxic Substances Control Act, Section 8(a)(7), and the U.S. Environmental Protection Agency.

ADC does not intentionally add any PFAS chemicals during the manufacturing process. Therefore, to the best of our knowledge and understanding, any PFAS materials present are part of a compound supplier's unique and proprietary formulation.

It should be noted that while we do not intentionally add PFAS into our products, we cannot rule out the potential contamination from processing equipment. In addition, ADC does not perform any chemical testing for PFAS used in the manufacturing process and/or in post-production of finished goods.

As of the date of this letter, Advanced Digital Cable, LLC. has performed its due diligence to ensure that our products fully comply with the TSC Act.

Sincerely:

Steve Tant  
Quality/Safety Manager
